I am pleased to offer a unique opportunity to join the Marin Event Task Force. Enrollment is limited to a maximum of one dozen applicants.

This is a comprehensive program to learn the art, logistics and business of event production and management. It will provide experience both in pre event design and planning as well as implementation in the field at our established Marin Cultural Events

I have been the Producer, Director and/or Production Manager of hundreds of wonderful Marin County based Cultural Events over the last thirty five years. I am in a unique position to mentor a select group with the drive and passion to be a part of event production and management.

Should you be selected for this program you will be deeply involved you in these great events produced, directed or managed by Pacific Expositions and/or Team Pro Event, Inc. The 2011 Marin based Events included in this program are:
